Performance Results

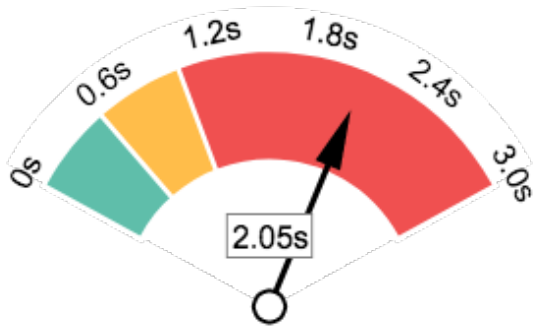

Your Performance needs improvement

Your performance is not great. Page load speed and performance is important to ensure a positive user experience. We recommend reviewing all aspects of your websites performance including page and object size, server performance and optimisations.

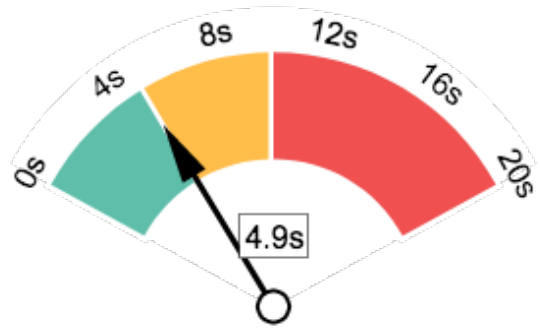

Page Speed Info

Your Page's Server Response Time is reasonably slow. We recommend optimizing this to improve user performance. There are a variety of technical factors such as the webserver engine and routing rules that can affect server responsiveness.

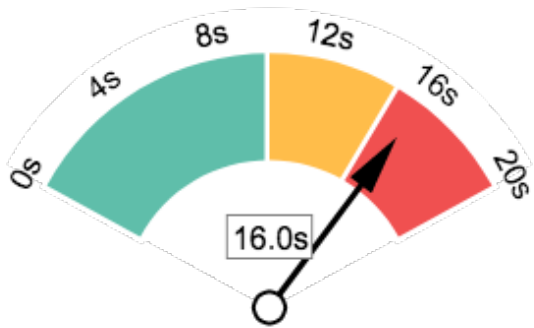

Server Response

All Page Content Loaded

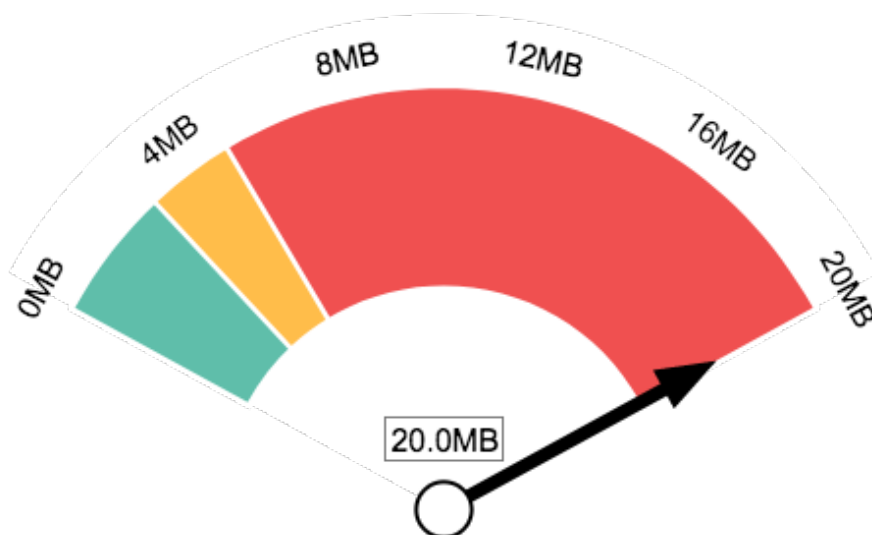

All Page Scripts Complete

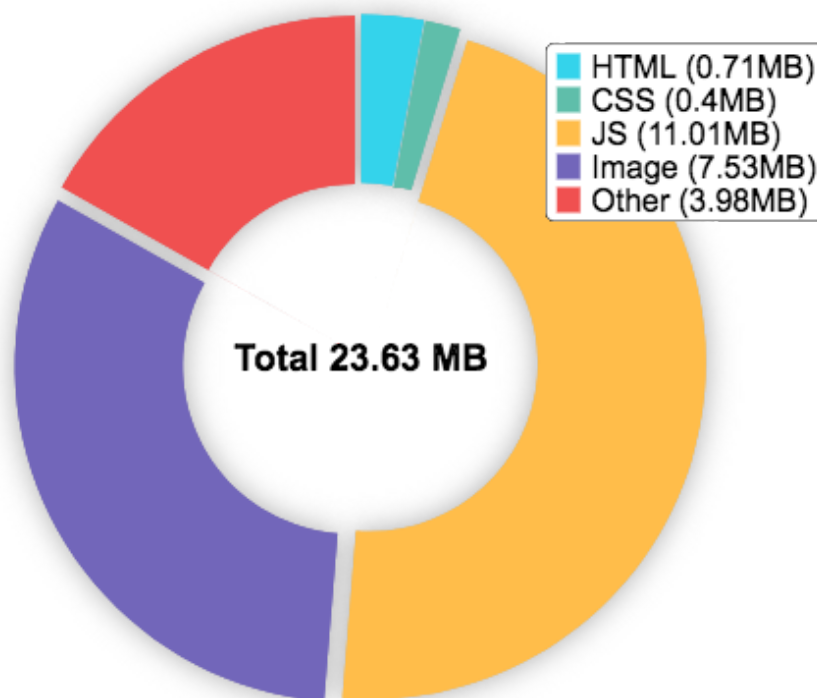

Page Size Info

Your website is quite large which regardless of other optimizations, can reduce load speed and affect user experience. We recommend keeping your website below 5MB in total file size.
